

# USEFUL APPs FOR YOUR TRIP

## WAZE the best navigation GPS tool

If you had only one app on your smartphone, we recommend it should be WAZE for navigation (and also our France Just For You App...which will send you a bit later in the process)

## DUOLINGO to learn some French

If you wish to start learning some French, this app gives you a short program of practice on a daily basis.

[Download Duolingo](#)

## UBER for taxi

If you think you'll need to use a taxi in big cities. Be careful, you won't find Ubers in smaller cities or towns.

## CITYMAPPER to reach your next destination

In big cities, when you are not driving, to figure out how to reach your next destination.

This app will provide all the different options available (walking, bus, tramway, taxi, bike, etc...) with transit times.

## THE FORK to book restaurants

...If you already use it at home

[Download The Fork](#)

## To BE IN TOUCH with HOME

Whatsapp is very nice to share pictures and short news with your relatives or call them when you are connected to a wifi so you don't pay anything.

## France Just For You App !!

To get all your trip in your smartphone (with weather, vouchers, emergency contact, daily itineraries...)

Your app will become available about 45 days prior to your arrival to France...we are working on it !
